Reasons for allowance

1. Claims 14-18, 21, 25-27 and 30-33 are allowed and renumbered as claims 1-13.
2. The restriction requirement of claims 15-18, 26 and 30-33, as set forth in the Office action mailed on February 20, 2009, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 15-18, 26 and 30-33 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest the recited photocurable composition further including a component comprising propoxylated glycerine, where the composition contains about 0.01% to about 10% by weight of the propoxylated glycerine and wherein the composition after cure has a yellow index/inch value of less than 80. The prior art of record also does not teach or suggest the recited photocurable composition further including a polyol component comprising propoxylated glycerine, where the composition contains about 0.01% to about 10% by weight of the propoxylated glycerine and wherein the composition after cure has a yellow index/inch value of less than 80.

The prior art does not teach motivation or suggestion for modification to make the invention as instantly claimed.

Any comments considered by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence Ferguson whose telephone number is 571-272-1522. The examiner can normally be reached on Monday through Friday 9:00 AM – 5:30PM.
